

FLORA SPRINGS

NAPA VALLEY FAMILY ESTATE

Founded in 1978 by the Komes and Garvey family, Flora Springs is an endeavor that spans over four decades and three generations. The winery is named after beloved family matriarch, Flora Komes, and the natural springs that flow uninterrupted through the hills of western Napa Valley where the family makes its home.

OUR FLAGSHIP WINES

TRILOGY

Created in 1984, Trilogy is a Napa original, one of the very first Cabernet-based proprietary red blends from Napa Valley. Then, as now, this iconic red wine is sourced from time-tested rows and blocks within the family's vineyard holdings, including highly prized locations in the Oakville and Rutherford AVAs. Depending on the vintage, Trilogy comprises three, four or even five Bordeaux varietals, allowing for flexibility to make the finest wine possible. Over its long history, Trilogy has garnered consistent high acclaim by wine critics and is admired both for its approachability and ability to age.

“One of the iconic proprietary red wines in Napa Valley has long been Flora Springs’ Trilogy.”

- Robert M. Parker, Jr.

SOLILOQUY

Flora Springs’ Soliloquy, first crafted in 1989, is the only wine in the world created from the Soliloquy clone of Sauvignon Blanc, a clone that is entirely unique to Flora Springs’ Crossroads Vineyard in the Oakville AVA. After rescuing the clone from near extinction in the early 1990s due to vine disease, General Manager Nat Komes took Soliloquy on as a personal project, experimenting with different yeast strains, fermentation regimes, aging vessels and varietal compositions to craft the wine he knew from taste memory. Today, Soliloquy takes its rightful place as one of Napa Valley’s finest white wines, drawing on vines planted in one the valley’s most acclaimed appellations.

“One of the first to see the future in high-class Sauvignon Blancs made in a Bordeaux-like style...”

- Robert M. Parker, Jr.

FLORA SPRINGS

NAPA VALLEY FAMILY ESTATE

For nearly five decades our family has worked and lived among our own estate vineyards in Napa Valley, and farming our land sustainably has always been a top priority and more than that, a way of life. With over 250 acres of vines, we are laser focused on leaving the land, soil and surrounding habitat healthier and more vibrant than we found it.

- The Komes and Garvey Family

THE VINEYARDS

P & J Vineyard – St. Helena

Acres: 43

Varietals: Cabernet Sauvignon, Chardonnay, Sauvignon Blanc

On the southern edge of the St. Helena AVA with close proximity to the Napa River, P&J Vineyard offers a diverse blend of alluvial soils. These deep soils help the vineyard come into balance during the warm St. Helena summers.

Komes Ranch – Rutherford

Acres: 20.5

Varietals: Cabernet Sauvignon, Petit Verdot, Malbec

Komes Ranch sits on the coveted Rutherford bench soils that slope down to the valley floor along the Mayacamas Mountain range. The site is a key source for our flagship red wine, Trilogy.

Garvey Family Vineyard – Rutherford

Acres: 30

Varietal: Cabernet Sauvignon

Located off Whitehall Lane at the base of the Mayacamas Mountain range, this vineyard is bordered by oak woodlands and an olive grove and is certified organic by CCOF.

Windfall Vineyard – Rutherford

Acres: 4

Varietals: Merlot, Cabernet Sauvignon

Sitting on the western benchland of Rutherford where cool evenings and warm afternoons prevail, this vineyard features well-drained, gravelly loam soils that are rich in nutrients.

Crossroads Ranch – Oakville

Acres: 107

Varietals: Sauvignon Blanc, Cabernet Sauvignon

The Komes and Garvey family has farmed this 107-acre ranch for over thirty years, building a rich knowledge of its diverse soils and microclimates. Crossroads is the site of Flora Springs' proprietary Sauvignon Blanc clone, Soliloquy, which was discovered by the family and certified by UC Davis in the late 1980s.

Red Hen Vineyard – Oak Knoll District

Acres: 10

Varietal: Cabernet Sauvignon

Located at the base of Mt. Veeder in the Oak Knoll District AVA, Red Hen is a warm site with light, thin alluvial soils comprising a foot of silty loam over 10-20 feet of pure cobble.

Kairos Vineyard – Napa Valley

Acres: 37

Varietal: Cabernet Sauvignon

Certified organic by CCOF, Kairos has a southwestern exposure and a cool climate due to its proximity to the San Pablo Bay. It is typically one of the last vineyards to be harvested each year.

Sunset Knoll Vineyard – Carneros

Acres: 10

Varietals: Chardonnay, Pinot Noir

A breezy, cool-climate vineyard close to the San Pablo Bay, Sunset Knoll sits in a pastoral setting near the northern border of the Los Carneros AVA.

Lavender Hill Vineyard – Carneros

Acres: 7

Varietals: Chardonnay, Pinot Noir

One of the coolest vineyards in Napa Valley, Lavender Hill is constantly buffeted by fog and breezes—producing low yields of aromatic and concentrated fruit.
