

SOLILOQUY

NAPA VALLEY

2023

VARIETAL

Sauvignon Blanc, Malvasia
Bianca & Chardonnay

MEAT PAIRING

Grilled chicken seasoned
with fresh rosemary

VEGETARIAN PAIRING

Eggplant Salad with
zucchini and leeks

CHEESE PAIRING

Baked Goat Cheese Dip

CELLAR

Enjoy now through 2029

Soliloquy is Flora Springs' love letter from the Napa Valley. Crafted over decades with quiet determination and care, Soliloquy is our poetic tribute to white wine: expressive, elegant, and profoundly personal. White wine is the Soliloquy of the vine —honest, reflective, luminous. To drink it well is to listen closely.

"The Soliloquy blend arises from a multi-generational commitment to sustainable farming and the pursuit of a wine that flows with true individual spirit."

– Enrico Bertoz, Winemaker.

TASTING NOTES

At 85% of the blend, Sauvignon Blanc anchors the wine with lush flavors and zesty acidity. Eight percent Malvasia introduces notes of citrus flower and jasmine that are beguiling. Seven percent Chardonnay brings a creamy mouthfeel finish and notes of Bosc pear and apple.

VINEYARD

Our 2023 Flora Springs Soliloquy is the continuation of a remarkable journey that began in 1989. Noting the unique character of a small block of Sauvignon Blanc from our Crossroads Vineyard in the Oakville AVA, we fermented and bottled it separately as our first Soliloquy white wine. Winemaker Enrico Bertoz took Soliloquy on as a personal project, conducting numerous blending trials over a several year period to re-create the Soliloquy wine he remembered from its earliest vintages. Experimenting with different yeast strains, fermentation regimes, aging vessels and varietal compositions yielded the wine he knew from taste memory, and today, Soliloquy represents our quest to refine the finest white wine we have ever made.

SOILS: Pleasant Loam

HARVEST DATE: Hand-picked on September 14, 2023

WINEMAKING

In an attempt to preserve the thumbprint of this treasured fruit source, the fruit is whole-cluster fermented in its natural yeast. This technique also means there is no inoculated yeast present in the wine.

VINTAGE

In 2023, Napa Valley experienced one of the longest growing seasons in a decade or more. Winter and spring rains led to full reservoirs and healthy, saturated soils; ideal conditions as grape growers headed into the peak growing months. With consistent, mild weather throughout the season, above-average crop yields, and extended hang time, 2023 was an exceptional, high-quality, and memorable vintage.
